EDUCATION

KIT-Kalaigarnarkaranidhi Institute Of Technology - Coimbatore, India

2023 – 2027

B.E,CSE(Artificial Intelligence And Machine Learning) , Pre-Final year

Coursework: Machine Learning, Artificial Intelligence, Deep Learning , Database Management Systems.

Current **CGPA:** 7.92/10.0 , **10th Mark:** All Pass, **12th Mark:** 502/600

EXPERIENCE

Web Development Intern, Code bind Technology – Trichy, India (offline)

- Completed hands-on training in **HTML and CSS**, gaining practical skills in web development.
- Developed and designed responsive web pages using HTML, CSS, and JavaScript, ensuring modern UI/UX principles.

Full Stack Development Intern, NandhaInfo Tech– Coimbatore, India (offline)

- Completed a 15-day internship in Full Stack Development at NandhaInfo Tech, gaining hands-on experience in HTML, CSS, JavaScript, PHP, and MySQL for dynamic web application development.
- Learned and implemented key concepts like user authentication, CRUD operations, API integration, and responsive UI design, along with real-time features.

PROJECTS

Smart Waste Bin Alert System | Arduino, Ultrasonic Sensor, Twilio API

- **Developed a real-time bin monitoring module** using ultrasonic sensing on Arduino, enabling accurate detection of waste levels without requiring Wi-Fi or cloud connectivity.
- **Integrated Twilio SMS automation** to instantly notify users when the bin reaches the full threshold, enhancing waste collection efficiency and reducing manual checks.
- **Designed a fail-safe alert mechanism** combining buzzer feedback and serial-monitor diagnostics for quick testing, debugging, and reliable field operation.

AI-Powered Waste Classification Using Deep Neural Networks | Python , Keras, Tensorflow, CNN, Deep Learning, Numpy.

- Deep Neural Network (DNN) to automatically classify waste from images into **Recyclable** and **Non-Recyclable**, reducing manual effort in waste sorting.
- If the waste is Non-Recyclable, the system further classifies it into types like **Organic** and **Hazardous**, helping in safer and more efficient waste disposal.

TECHNICAL SKILLS

C	SQL	Github	Python	DSA	Java
OOP	HTML	CSS	DataBase		

CERTIFICATIONS & COURSES

Coursera – Designing User Interfaces and Interface
Infosys – Introduction to Cyber Security
NPTEL – Introduction to Internet Of Things
NPTEL – Design Thinking
NPTEL – Cloud Computing
CISCO – Python Essentials

COMPETITIVE PROGRAMMING

Leetcode : Max rating - **1539** | Solved problems: **265** | Top **34.31%** globally | Badges : **4** .

Codeforces : Max rating - **1305** | Position: pupil | Solved problems: **83**.

Codechef : Max rating - **1604** | Position : 3 Star | Problems : **1001** | **Global Rank** in Codechef : **20788** .

ACHIEVEMENTS

- **Finalist – VCETHackElite 2K25** - Selected as a finalist for the 24-hr national Hackathon, to present an innovative AI-based solution.
- **Secured 5th Place – “Hack the Horizon” 24-Hour National Hackathon** - Secured 5th place among 100+ teams in KPR Institute’s hackathon, showcasing creativity, coding skills, and teamwork, and earned an internship offer from W3AppDevelopers.
- **SIH 2025 – National Level Shortlisted Team** - Shortlisted for SIH 2025 under the Ministry of Home Affairs (NDRF) for developing a radar-based living person detection system for disaster rescue operations.
